

RS-CREATE Series

Automatic case forming, folding and sealing

The RS-Create is a compact case forming solution that automatically forms, folds and seals corrugated cartons from flat blanks. This highly efficient and compact RSC case former is fully auto adjust for different case sizes and with its inline horizontal blank magazine it is prepared for connection to automated blank distribution system offered by BPA. The RS-Create has a simple design, is easy to use and changeovers of different case formats is fully automated. The machine produces perfect cases with 90 degree angled corners, which is important for the optimal stacking and protection of your products on a pallet. The RS-Create can be easily integrated into your new or existing BPA case-packing line or any other existing packaging line.

Different machine types

• RS-Create 43

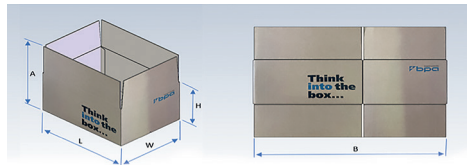

A compact case forming solution that automatically forms, folds and seals corrugated cartons from flat blanks (maximum size 415 x 310 mm).

• RS-Create 64

A compact case forming solution that automatically forms, folds and seals corrugated cartons from flat blanks (maximum size 615 x 410 mm).

Container specifications

	RS Create 43	RS Create 64
width:	140 - 310 mm ^{**}	150 - 410 mm
length:	190 - 415 mm	200 - 615 mm
height:	75 - 400 mm	150 - 400 mm
A:	170 - 550 mm	225 - 600 mm
B:	350 - 725 mm	350 - 1025 mm

Capacity: up to 20 CPM (Cases Per Minute)*
Other sizes upon request

* Indicated capacity performances depend on the cardboard quality.
** 140 mm width cases are possible, but are restricted in blank length. 160 mm width cases are standard.

Main characteristics

- Compact design and easy and ergonomic blank loading
 - Compact single frame design resulting in minimal floor space (small footprint)
 - Inline and easy to load the horizontal blank magazine
 - Left and right hand version available
 - Load while the machine is in operation
 - No magazine adjustments to be made
 - Buffer capacity of magazine easy to increase
 - Possibility for connection to unique automated blank distribution system offered by BPA
- Precise case forming
 - Thanks to individual blank alignment precise transfer from magazine to erecting head
 - Full control during forming and flap folding for perfect 90 degree angles of case
- Fully auto adjust for different case dimensions
 - Spring-loaded transport side belts for case variations
- Case bottom closing
 - Closing of case with tape or hotmelt
 - Accommodate several brands of tape heads
 - Accommodate several brands of hotmelt systems (incl. auto fill systems)
 - High efficiency glue nozzles provide perfect control of glue application
- Safe and easy operation
 - Operator friendly HMI (TFT color touchscreen interface)
 - Safety curtains protect operators from moving machine components
 - Changeovers through recipe selection and auto-adjust settings
 - Simple adding of new case sizes in HMI menu
- Remote access via eWon

Options

- Hotmelt autofill
- Up- and downstream conveyors
- Integration of carton marking (inkjet printing, labeling, etc.)
